Get to know Jasmine Rosal

Hello my Quilty Friend!

My name is Jasmine. I'm a stay at home wifey, momma to three girls, homeschool teacher, and when I have a moment to myself, I'm at my sewing machine usually stitching up something for the home.

As far back as I can remember I've had a great admiration for quilts. Though I never owned one, and no women in my family ever quilted I just knew or dreamed, that one day I would make a quilt for my own child. When my daughter was born eight years ago, I refused to pick out bedding at the big box stores and instead asked for a cheapy sewing machine for Christmas. With a few leftover fabric scraps from my wedding and some quick searches online I set out to sew my first item ever, a quilt! In case you don't know I don't ever reach for the easy projects. Hahaha! My very first quilt was made with scraps, no batting, double gauze backing and some very sketchy binding. It was practically falling apart the moment I finished, but that didn't matter. I wrapped my baby girl in it and returned to the sewing machine with even more determination.

hexie flowers

Excited to launch our first collection designed by Jasmine from Linen Bouquet!

While she has always searched for creative outlets, her love of sewing was sparked as a child when she attended her first embroidery class.

Later in life as a new mom, she found the art of quilting and loved the idea of blending both machine sewing with hand stitched details.

This combination is the main inspiration for her debut collection
Hexie Flowers with Camelot Fabrics.

Hexie flowers are a timeless design using the classic and versatile hexagon shape in the cutest way possible. With every hand sewn stitch the pieces come together to create a posey design that accent any handmade project.

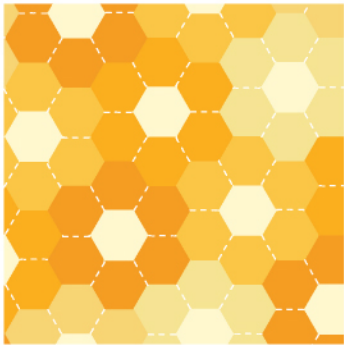

Here the hexies are blended together in an array of fun,

bright, sorbet-like colors, that are sure to bring joy to your creations.

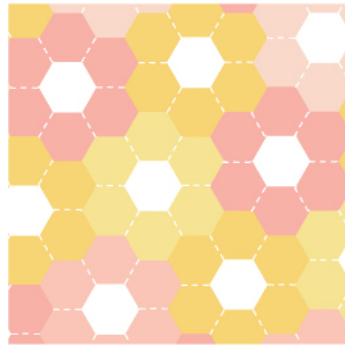

Enjoy these inspirational project ideas Jasmine made with the Hexie Flowers fabrics.
